

Handheld Insulation Tester

Reliable Insulation Testing - Anywhere, Anytime

Zeta 10/20 Ensure electrical safety and system reliability with our compact and rugged Handheld Insulation Tester, designed for accurate insulation resistance measurement up to 1 GΩ and 2 GΩ with selectable test voltage up to 1000V.

Features

- **Insulation Resistance Range** : Up to **1 GΩ / 2 GΩ** (model dependent)
- **High Accuracy & Stability** for dependable test results
- **Compact, Lightweight & Ergonomic** - ideal for field use
- **Easy-to-Read Display** for quick interpretation
- **Rugged Housing** suitable for industrial environments

Application

Electrical Panels & Switchgear

Motors, Transformers & Generators

Cables & wiring Installations

Preventive Maintenance & Commissioning

Field Service And Troubleshooting
