

Customer Success Story – Smarter Testing with Sifam Tinsley

Customer Overview:

SanRemo S.A de C.V, Mexico based Company, A manufacturer specialized in electrical distribution and power transformers, with its own testing laboratory, faced the challenge of managing multiple instruments for different parameters — and our solution simplified it all.

Challenges:

The discussion began with the Chief Laboratory Tester, who highlighted how their team relied on nine different meters to complete routine testing tasks. Managing so many instruments not only took extra time and space but also increased calibration and maintenance efforts.

Solution Approach :

With Sifam Tinsley's advanced **Alpha 70A+ - Touch screen Multifunction Meter**, the lab achieved what once required nine devices — in a **single, compact, and reliable unit**.

Sifam Tinsley Instrumentation Inc.

Address: 2105 Barrett Park Dr, Unit 105, Kennesaw, GA 30144
Tel.: 800-879-6171 | **E-mail:** info@sifamtinsley.com | **Web:** www.sifamtinsley.com

Alpha 70A+

Key Highlights :

- **1 Meter = 9 Functions :** Reduced clutter and cost.
- **Touchscreen Interface :** Simplified, interactive, and user-friendly.
- **Accuracy & Reliability :** Trusted by professional testers.
- **Efficiency Boost :** Faster testing & simplified workflows.
- **Lower Maintenance :** One device to calibrate and maintain.

Customer's Usage Shot :

Impact :

The customer's testing process is now **streamlined, accurate, and highly efficient** — proving once again that with Sifam Tinsley, **less is more.**
