04 Business Horizons...

Instrumentation Products & Test Equipment

Standard product sales
Brand Labelling
Contract Manufacturing

**Aluminium
Die-Casting**
Customized part
manufacturing

Energy Solution Labs

Solutions for reducing
the cost of energy

Solar Solutions

Manufacturing of Solar
Inverters

What we do

We design and **manufacture** electrical test and measuring instruments and industrial control products for the **power segment** and **industrial** markets.

Our technology

Our in-house R&D and automated & controlled manufacturing is our core strength enabling us to make world class products for **electrical** and **measurement instrumentation**.

Our customers

Our customers are leading panel builders, maintenance specialist, and service engineers

Global markets

We have over 500 channel partners in more than 75 countries selling more than 625 products.

Insights

Insights

Registered 17
patents at the
USA & Europe

Largest
manufacturer of
APMs across the
globe

Pioneers in Touch-
Screen technology in
MFMs

Every 10th
Analog meter
over the globe is
manufactured by
Rishabh

Pioneer in
introducing
Industrial Grade
Multimeters

Products comply
with IEC as well as
ANSI Standards

Insights

Complete
Product
Development &
Life-Cycle
Management

95% of
Components
manufactured In-
house

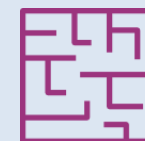

PCB Technology &
SMD machines

Capacity to
produce over 1.2
Mn meters per
year

Technically strong
Workforce of 1000
Employees

Solutions &
Application Driven
Approach

Strengths

Vertically Integrated Manufacturing

- Mould manufacturing
- Injection molding
- Tool room
- Metal punch shop
- SMT + Reflow for PCB
- Automatic calibration for digital products
- Coil winding
- Transformer manufacturing
- High Pressure Die Casting

precision instrumentation

Strengths

In-house R&D & Engg.

- Product development
- PCB design
- Firmware development
- Mechanical design
- Mould design
- R&D facility approved by DSIR (Govt. of India)
- 17025 Accredited testing lab

precision instrumentation
